

Husker Refuse is excited to announce our participation in the **Hefty Energy-Bag Program**. This expands the amount of items that can be recycled at home! It focuses primarily on plastics that were not previously accepted. These items can now be recycled by being placed into separate orange Hefty bags together, and then placed in your curbside container with all the usual items that still do not need to be sorted. More information can be found on our website: [www.huskerrefuse.com](http://www.huskerrefuse.com)
